

CW 309

Automatic tripod turnstile

Technical parameter

Working voltage: AC110/220V, 50/60Hz

Working environment temperature: -25°C~70°C

Waterproof and dustproof: IP54

Relative humidity: $\leq 90\%$, no condensation

Switching time: not adjustable

Motor power: 60W (DC brushless).

Input control signal: switch value.

Running speed: 30 people/minute.

Opening and closing time: 0.8~1.5s.

Normal service life: 5 million times.

Chassis material: standard 304 stainless steel.

Channel width: 550mm.

The shape of the chassis can be customized according to requirements
