

Technical parameter

Power supply: AC220V±10%V 50HZ.
Working temperature: -25°C ~ 70°C
Motor power: 60W(brushless motor)
Waterproof and dustproof:IP54
Relative humidity: ≤90%, no condensation
Infrared quantity: 4 pairs infrared
Input control signal: switch value, optional RS232/RS485
Channel width: 550mm ~ 850mm
Door opening speed: 0.5s
Number of passers: 30 ~ 40/min
Chassis material: stainless steel + electrostatic powder paint
* The appearance of the chassis can be customized according to requirements
